

Apostle Inc Appoints Eric D. Masingale as VP of Business Operations

For immediate release

MENLO PARK, CA, January 15, 2020 – Apostle Inc is pleased to announce the appointment of Mr. Eric D. Masingale as its Vice President of Business Operations. In this role, Mr. Masingale will manage company wide business operations and drive opening new markets.

Mr. Masingale has over 20 years of experience in sales in the medical device industry, and is a global executive and enterprising business leader with a successful track record including serving as Global VP of Sales and Marketing of Stryker Endoscopy between 2006 and 2012, and Global VP of Sales and Marketing of Torax Medical (later acquired by J&J) between 2012 and 2014. Mr. Masingale held B.A. of Speech Communications from California State University Hayward, and joined Executive Leadership Program of Harvard Business School in 2010 and 2013.

About Apostle Inc

Apostle Inc is a biotechnology company in Menlo Park, CA, aiming to develop innovative technologies in the space of liquid biopsy - the sampling and analysis of non-solid biological tissue, primarily blood, often utilizing circulating free DNA (cfDNA) as a biomarker. Apostle's innovations include Apostle MiniMax™, a new scalable and automatable method to efficiently capture cfDNA from a standard blood draw.
