

**APOSTLE INC  
APOSTLE DIAGNOSTICS LABORATORY  
RECEIVES ACCREDITATION FROM  
COLLEGE OF AMERICAN PATHOLOGISTS**

For immediate release

**San Jose, CA, August 30, 2021**

The Accreditation Committee of the College of American Pathologists (CAP) has awarded accreditation to Apostle Inc Apostle Diagnostics Laboratory, San Jose, California based on results of a recent on-site inspection as part of the CAP's Accreditation Programs.

The facility's director, Wenqi Zeng, MD, PhD, ABMGG, ACMG, was advised of this national recognition and congratulated for the excellence of the services being provided. Apostle Inc Apostle Diagnostics Laboratory is one of more than 8,000 CAP-accredited facilities worldwide.

"I am very pleased to receive the CAP accreditation. We are committed to providing the highest standard for all of our laboratory work." said Dr. Zeng. Apostle's Chief Executive Officer Dr. David Ge upon learning of the laboratory's accreditation, said: "Congratulations to the team for the award of CAP accreditation. With this recognition we will be able to better serve our community."

The U.S. federal government recognizes the CAP Laboratory Accreditation Program, begun in the early 1960s, as being equal-to or more-stringent-than the government's own inspection program.

During the CAP accreditation process, designed to ensure the highest standard of care for all laboratory patients, inspectors examine the laboratory's records and quality control of procedures for the preceding two years. CAP inspectors also examine laboratory staff qualifications, equipment, facilities, safety program and record, and overall management.

**About the College of American Pathologists**

As the world's largest organization of board-certified pathologists and leading provider of laboratory accreditation and proficiency testing programs, the College of American Pathologists (CAP) serves patients, pathologists, and the public by fostering and advocating excellence in the practice of pathology and laboratory medicine worldwide. **About Apostle Inc and Apostle Diagnostics**

Apostle Inc is a biotechnology company in San Jose, CA, a provider of innovative technologies and services for public health and life sciences. Apostle aims to develop innovative technologies in the space of liquid biopsy - the sampling and analysis of non-solid biological tissue, primarily blood, often utilizing circulating free DNA (cfDNA) as a biomarker. Apostle's innovations include Apostle MiniMax, a new scalable and automatable method to efficiently capture cfDNA from a standard blood draw; Apostle MagTouch, a nucleic acids isolation automation system, and Apostle MiniEnrich, a high-resolution DNA size enrichment technology using a magnetic nano-platform. In 2020, the company responded to the COVID-19 pandemic to help our community fight together with a high quality, low cost, fast, automated, Apostle COVID-19 Viral RNA Isolation System. Up to date, Apostle's technology has served over 10 million people.

Apostle Diagnostics a CLIA Certified, California State Licensed, CAP Accredited Clinical Laboratory, and is a clinical laboratory branch of Apostle Inc. The laboratory is co-directed by Wenqi Zeng, MD, PhD, FACMG and Charles Strom, MD, PhD, FAAP, FACMG, HCLD. The laboratory upholds the people-oriented and science-oriented service concept and is committed to serving the community and providing accurate, strict and timely clinical testing services. To date, Apostle Diagnostics has served more than 30,000 people.
