

Attestation to the US Framework for Nucleic Acid Synthesis Screening

Apostle Inc understands that United States federally funded life sciences entities and funding agencies rely on this attestation when considering the purchase of gene synthesis equipment or products. We hereby attests to our fully compliance with the [*U.S. Framework for Nucleic Acid Synthesis Screening*](#).

We are committed to upholding the highest standards of ethical conduct and regulatory adherence in all our operations, as specified in the Framework,

- Screen purchase orders for synthetic nucleic acids to identify sequences of concern (SOCs)
- Screen customers who submit purchase orders of synthetic nucleic acids with SOC's to verify legitimacy
- Report potentially illegitimate purchase orders of synthetic nucleic acids involving SOC's to relevant authorities
- Retain records relating to the purchase of synthetic nucleic acids
- Take steps to ensure cybersecurity and information security

If this information change, this attestation will be updated within 72 hours. For more information, please contact us at support@apostlebio.com.
